A HEALTHY MIND HOUSES A HEALTHY BODY

Free Medical Examination

Preventive medical care is important for children to ensure healthy development and to tackle any potential health issues before they become more serious or irreversible.

Dr. Eram, MBBS MD, Santosh Medical College devoted her time to medically examine our children of Gejha, sector 93, Noida, our after school study programme center. She evaluated 37 children in two hours and the children mostly were suffering from the problems like worms, malnutrition, lice, Iron deficiency, fungal infection in some cases.

Prescribed medicines were arranged and the parents of the children administered them.

Our sincere thanks to Dr. Eram for her valuable time and for the thorough medical checkup of our children.

Medical donation drive is one that should be saluted and celebrated. From generous donation of medical supplies to volunteers donating their time and services, this drive is a true testament to the power of giving back to the community.

After Dr. Eram conducted a medical checkup for our children of Gheja center, Mrs. Aparna Tripathi, a resident of Silvercity helped us by donating the prescribed medicines.

These medicines were then distributed to the children.

Fund raising through raddi collection

The year closes with the completion of one year of Raddi collection from Silvercity Apartments, sector 93. A whopping one year collection of 88,898 Rupees .

This wouldn't have been possible without the tireless efforts of Anupama, Dipali, Chaitali, Rijita, Seema, Preeti, Poornima, Nandani, Naghma, Sunaina, Col. Apurva Tandon, Deepa, Ramita, Rakhi P, Rakhi , Antara, Radhika, Uma, Gomathy, Shilpi and the residents who came forward for this noble cause.

Christmas and New Year celebrations

Christmas is generally a festive day for most of the children, and it was no different for the children of Sunshine society.

Sunshine's well wisher Sujata ma'am was like a santa to children as she encouraged children to make small packets of useful gifts. Our children in all the three centers- sec 50, sector 51 and sector 93 had a great time and it was so good to see their happy faces.

As the year 2022 comes to a close and 2023 rises to new hope, energy and enthusiasm, team Sunshine wishes everyone a very happy new year with gratitude.

Interactive seminar with various NGO's held at Amity University on february 2,2023. Sunshine Society was represented by the members Nirupma and Rijita who brought forward the efforts that go into generating funds

by raddi collection and how Sunshine Society is making difference in the society by providing not only acedemic support but also creative support through their three after school study center in sector 50, 51 and 93 in Noida. Nirupma Chowdhary highlighted the efforts of the students of Amity University who come to volunteer in our study centers.

A special stage show performance in Meghdutam Rangamanch festival was done by enthusiastic senior citizens of Sunshine Society. The audience cheered and clapped for them and their performance was a super hit.

What made this show special is that it showcased how vital it is to get different age groups involved in such activities. it creates a bond between different age groups and the younger generation also learn a lot from the older ones.

CREATIVE ACTIVITIES

Creative activities not only help children in developing their creative thinking skills, problem solving abilities, self expression but also develop a sense of accomplishment and pride. The children work collaboratively with others and become more flexible to adjust. Keeping this in mind Sunshine society makes an effort to engage children in various creative activities.

Our very own Nirupma ma'am who is also known as "Badi ma'am", looks after academic activities and overall administration. Apart from this she also takes creative classes for the children. Children enjoy bringing out their emotions through Art. She uses basic, non expensive material to create different things.

Mr. Sudhir Jain and Mrs. Sunita Jain from Antarang Performing Arts Academy teach our children singing and dancing. Children thoroughly enjoy learning these art forms and they also participate in different functions and get opportunity to showcase their skills. Some volunteers also come to the centre to teach dance to the young children.

Tanvi Saraiya has started Calligraphy classes at sector 93 study centre. Ten students begin their calligraphy classes. Once a week Calligraphy class will train the students to become self reliant. Tanvi not only trains them professionally but also provides them with all the required material. A big step towards a better future.
